PRESS RELEASE FOR IMMEDIATE RELEASE

Motor Excellence, LLC Occupies New Headquarters in Flagstaff, Arizona (Flagstaff, AZ, March 27, 2009) Motor Excellence announced today that it occupied its new 5,000 square foot headquarters in Flagstaff, Arizona. While the move in began in early 2009, the facility is now fully operational and staffed.

Motor Excellence, LLC, develops novel motor and generator technologies for automotive, industrial, defense and consumer applications that feature dramatic advances in efficiency, torque, power, weight, and design flexibility.

The new headquarters at 1359 East Butler Avenue in Flagstaff features offices, a computer modeling and simulation laboratory, as well as advanced motor and generator prototyping and testing facilities.

Motor Excellence assembled a world-class team of research and development, product development and business development professionals from around the nation to commercialize its patented and patent pending new clean energy technologies.

Community leaders representing local government, academia and businesses came together on March 27, 2009 for an open-house and tour of the new facility. Motor Excellence intends to expand its operations by building a manufacturing facility on adjacent land it owns for short production runs.
